Professional Series

BioPet Stain & Odor Remover

Limpiador para manchas y olores de mascotas

Biological Solutions™ BioPet Stain & Odor Remover removes all types of pet stains and odors from carpet, fabric and upholstery. Our exclusive enzyme formula penetrates to remove tough stains such as urine, vomit, pet stains, grease, oil, grass, blood and food spills.

DIRECTIONS FOR USE

Shake well before using. Before applying, test a hidden area of carpet or fabric for colorfastness. Allow test area to dry. If color bleeds or discolors, carpet or fabric is not colorfast.

WHERE TO USE

Removes stains and odors on water-safe carpet and upholstery. (Refer to manufacturer's warranty for use on stain resistant carpet.)

HOW TO APPLY

CARPET STAIN REMOVAL: Using a dull knife or spoon, gently remove hard soils to a paper towel. Remove significant amounts of liquid using a wet/dry vacuum. Then, blot with a clean colorfast towel to remove excess liquid. Try to keep as much of the stain as possible from penetrating into the carpet. Do not rub, as rubbing may alter the carpet texture. Spray directly on stain and immediately blot with a clean absorbent colorfast cloth or paper towel. Repeat as necessary. Increase contact time for stubborn

stains. Follow large jobs with water extraction. Vacuum to restore carpet pile after carpet is dry.

UPHOLSTERY CLEANING: Vacuum thoroughly, then clean one section at a time using a spray-blot-rinse-blot method until the entire section is finished. Do not oversaturate upholstery.

PROFESSIONAL HINTS

- Treat stains as soon as possible.
- In the event the treated area appears lighter, clean the entire section to avoid rings.
- Certain stains like urine, vomit, feces, bleach or rust can cause permanent discoloration and may be impossible to remove.
- Do not use on silk, suede, velour, velvet, oriental rugs, wool carpet or any dry-clean-only fabrics.

SAFETY PRECAUTIONS

CAUTION—Causes slight eye irritation. Avoid contact with eyes, skin, open wounds or clothing. Wash thoroughly with soap and water after handling.

FIRST AID

If in eyes: Flush with plenty of water. Call a physician if irritation persists. If on skin: Wash with plenty of soap and water. Get medical attention if irritation persists. If swallowed: Call a physician or poison control center. Drink 1 or 2 glasses of water. Induce vomiting only if advised by a physician.

HMIS RATING

Health 1, Flammability 1, Reactivity 0

RIGHT TO KNOW

Ingredients: Water (CAS No. 7732-18-5), Bacterial spores (Mixture), Borax (CAS No. 1303-96-4), Magnesium dodecyl sulfate (CAS No. 3097-08-3), Essential oils (Mixture)

VOCs: 0.50% (0.042 lbs/gallon)
